Ubiquiti UniFi U6+ Wi-Fi 6 Compact PoE Access Point

The U6+ Access Point is a dual-band, ceiling-mounted access point with (1) GbE RJ45 port that brings plug-and-play Wi-Fi 6 to your home or office. With its 2.4 and 5 GHz Wi-Fi 6 bands, it offers an aggregate, over-the-air throughput rate of 3.0 Gbps, which can support over 300 clients. The U6+ can be set up in minutes and managed from anywhere via the UniFi Network Application or UniFi Network Mobile App.

Benefits

- A compact access point improving upon the U6 Lite by bringing higher performance and dual-band Wi-Fi 6 support
- Entry-level access points for small venues
- 1,500 ft² coverage
- Supports 300+ connected devices
- Powered using PoE
- Managed with UniFi Network Application (version 7.3.76 and later)
- CE, FCC, IC certified
