Ubiquiti UniFi Wi-Fi 5 Access Point AC Pro

Ubiquiti's professional indoor or outdoor WiFi access point supports 802.11ac and speeds of up to 1300Mbps in the 5GHz radio band and up to 450Mbps in the 2.4GHz radio band. The UAP-AC-PRO offers simultaneous dual-band operation with 3x3 MIMO on both radio bands. It has a range of up to 122m (400ft) and two Gigabit Ethernet ports.

Benefits

- The UniFi AC Pro AP supports simultaneous dual-band, 3x3 MIMO technology in the 5 and 2.4 GHz radio bands.
- The UniFi AC Pro AP is a gigabit, 802.3af-powered access point suitable for indoor or outdoor use. You can easily replace a standard UniFi AP using the same mounting hardware.
- The UniFi Network Application is a powerful, enterprise wireless software engine ideal for high-density client deployments requiring low latency and high uptime performance. With its software-based capabilities, the UniFi virtual control plane allows for unlimited scalability under one centralized application.
- Remotely access the UniFi Network Application to upgrade deployed UAP-AC-PRO APs while in the field.
